Alan Regis

Backend Developer

alanregisps@gmail.com | +55 85 98211-9104 | linkedin.com/in/alanregis | github.com/Alanlan21

Fortaleza, Brazil

SUMMARY

Backend Developer with 2+ years of experience in critical production systems. Focused on REST APIs and backend architecture using Node.js/NestJS, TypeScript, and relational databases (MySQL/PostgreSQL). Complementary frontend experience with React. Upper-intermediate English (B2). Solid practices in Docker, Git, and CI/CD.

TECHNICAL SKILLS

Backend
Node.js, NestJS, TypeScript, Java, Spring, C#/.NET (basic)

Databases
MySQL, PostgreSQL, TypeORM, SQLite

DevOps & Tools
Docker, Git, GitHub, GitHub Actions, CI/CD, AWS

Frontend
React, Next.js, React Native, Tailwind CSS

APIs & Security
REST APIs, JWT, OAuth, Swagger/OpenAPI

AI-Assisted Dev
GitHub Copilot, Cursor, Claude, Prompt Engineering, RAG

PROFESSIONAL EXPERIENCE

Web Developer
Energia Pecém — Strategic thermoelectric power plant in Ceará, Brazil

Aug 2024 - Jan 2026
Fortaleza, Brazil

- Developed critical REST APIs handling 100% of maintenance and safety workflows for the power plant
- Designed MySQL/TypeORM database schemas with ISO and LGPD compliance
- Built audit system integrated with Protheus ERP and Grafana monitoring
- Implemented JWT authentication for strict access control to critical systems
- Automated PDF report generation with Puppeteer — 60% reduction in processing time

Stack: NestJS, TypeScript, MySQL, TypeORM, Docker, JWT, AWS, Grafana

Java Developer
Dataged — ECM/Document Management for public institutions (15+ years)

May 2023 - Jun 2024
Fortaleza, Brazil

- Maintained internal Java/Spring system critical to company operations
- Developed client solutions end-to-end, from requirements gathering to delivery
- Fixed bugs and implemented new features in legacy systems
- Reduced support tickets by ~15% through proactive improvements

Stack: Java, Spring, Hibernate, SQL, HTML, CSS, JavaScript

FEATURED PROJECTS

SOC Dashboard — Cybersec

Red Team vs Blue Team platform. WAF with 18 regex patterns, IDS/IPS with threat intelligence, 136 automated attack payloads, real-time SOC dashboard.

NestJS • PostgreSQL • React • Python — GitHub

UniMenu — Full-Stack + Mobile

Complete restaurant ordering system. JWT authentication, Stripe payment integration, NestJS backend + React frontend + React Native mobile app.

NestJS • React • React Native • MySQL — GitHub

FalaPai — PWA in Production

Assistive communication app with natural voice synthesis via ElevenLabs API. Installable PWA with local persistence and drag & drop organization.

React 19 • Vite • Tailwind • ElevenLabs — falapai.vercel.app

EDUCATION

Systems Analysis and Development
University of Fortaleza (Unifor)

2023 - 2025 • Completed

Portuguese: Native **English:** Upper-Intermediate (B2)
